Dear Sir

I have this day been informed that Capt. Geo. W. Williams has been nominated to your Excellency for promotion in the place of Mag. Wm. Pierce promoted all of the 14th Reg. Ky. M. I have not been long in Commission as Capt. and know but little on the subject except what I have learned from a careful perusal of the Militia laws all of which, I believe, I have in my possession. Not having an opportunity of conversing with the field officers and being somewhat interested. I have been induced to suggest to your Excellency, whether Capt Williams be entitled to the promotion. He is the commander of the Paris Light infantry company. and is he not embraced under that description of officers mentioned in the 3 sec. of an act approved Dec. 10th 1822 entitled an act to amend the Militia laws? There is none other than the most friendly relation existing between Capt. Williams and myself. and if he be improperly nominated I presume it has been done inadvertently. It seems to me that Artillery, Cavalry Light Infantry, & Grenadiers. & are all, that description of troops denominated independent. and that their commanders do not rank those of the line, except in the cases designated in the above recited section. I ask for that information which I hope your Excellency will have to goodness to afford

Yours &c

Sidney P. Clay
