To the Governor of Kentucky

your petitioners would represent that Joseph Bruce a youth of about Sixteen or Seventeen years of age and in the employment of James Trotter in his Store at Nicholasville, and in the knowledge of your petitioners has conducted himself with great prudence and circumspection he unfortunately a short time since got into an affray with a grown man and has been fined by a jury Twenty dollars, he is poor and his parents are poor and all unable to pay the fine, we therefore beg your excellency to remit the fine, as we are sure he has repented of his indiscretion and an exaction of the Money would be impractible and imprisonment would only inflict disgrace without producing any beneficial effect

Gov. of Kentucky

Your petitioner Anthony Garnett would respectfully state, that at the last August term of the Christian Circuit Court I was fined in two cases for horse racing upon the high way, that in one of said cases I was not guilty, and therefore ought not to have been fined — I suppose, presentment was found, and judgement rendered through a mistake of this court I had loaned my horse to a friend who for amusement or some other purpose ran him at the time of the first race acknowledge by me, and my horse running, it was supposed that I had made the race when in truth and in fact I did not, I your Petitioner state that I was not present at the time when judgement was rendered against me, that I had little expected that they would fine me for misdomeiner that I was not guilty of, I had no Lawyer employed nor did I make any defense in either case, had I done soe I confidentially believe I could have substantiated

The facts above stated, and as it res
pects the case acknoledge. I can only say
that I have been driving horses from
Christian County for the last six or eight
year to the South, and have own in
that time from three to four hundred
horses, and it was the second horse of
mine I ever suffered to be run, and that
for the pitiful amount of five dols, and
Wharefore your Votationer respectfully
asks your Excellancy to protect me
from injustice by remitting one of

At the request of Mr. Garnett, I cheerfully state, that had
the facts above stated been made known to the Court,
at the time of the trial, I have no idea that Mr. G.
would have been fined in both cases; — and from circum
stances which have come to my knowledge, I think it
probable that the presentment for the second offence
originated through mistake. — Mr. G. is a useful, inter

To His Excellency John Breathitt Govr. of Kentucky

We the undersigned petitioners would respectfully represent to your Excellency that about 4 or 5 years past George W. Black of the County of Boone, made at his own proper expence a slight alteration in the Louisville and Cinn. road say 150 yards, in extent, by which a very bad mudhole and a sideling piece of ground was avoided, and the public alone was benefitted, that the said alteration was used entirely by the public and worked on by the overseer — that sometime afterwards the said Black fenced up the old way, for which he was presented and fined at the last August term of the Boone Circuit Court sixty eight dollars

We would respectfully ask of your excellency, that, as not the least injury has been done to the public or could have been intended by said Black, and as the new way has been legally established, that you would be pleased to remit said fine — September 26th 1832
