Petition

suspended —

granted — July

Pardoned. 15th 1833 13th

To his Excelency the Governor of Ky—

Your Petitioners would respectfully in
vite your attention to young Lampkin, Con
=vict in the Penetentiary from the County
of Washington, as an object worthy the
commiseration and compasion of your Excelency—
He was convicted subject to circumstances of
a peculiar nature, the blow which resulted in
in the death of the individual for whose
murder he was tried, being struck without
malice, or previous intention, under the in
=fluence of momentary excitement, to sheild
from violence and outrage the weakness of an
aged Parent— He is very young, has suffered a
year of the time for which he was convicted, and
as your Excelency will learn by inquiry of
the Keeper of the Penetentiary, is amiable indis
=position, industrious, docile and obedient—
A compasionate exercise on this occasion
of the power with which your Excelency is vested,
whilst it will be a subject of pleasurable reflection
to yourself, your petitioners beleive, will be highly
agreeable to the people of Washington County
