To His Excellency William Owsley Governor of the commonwealth of Kentucky

Your Excellency will pardon the liberty I have taken. I am persuaded in making this address. The reasons which have induced it originated in the information through Strange Rumor. that Your Excellency had delayed action upon the recommendation by the Ballard Cty. Court, of R.D. Cholson and T. Clark as proper persons to fill the vacancy, made by the resignation of Esqr. Kepshaw upon the Bench of said Court and that Your Excellency would probably await an expression of public sentiment upon the matter before commissioning the said Cholson Although I am to the utmost extent of the expression opposed to the said Cholson in a political point of view, and am aware that there are charges against his personal Character, which if true should be followed by complete degradation. Yet nevertheless, in the absence as I do know, of any thing surely going to the establishment of those charges, I cannot withold the opinion which I thoroughly entertain, that if the people of Ballard County, were indifferently consulted, a very respectable majority of them would say unhesitatingly that they preferred him to any other man to fill the office of Although there are other men whom I would prefer, as far as I am individually concerned. Yet as the

At the same time I feel assured that there is not a man belonging to this county and comparatively few in the state of Kentucky, better calculated to fill the office of ~~Judge~~ Justice of the County Court. He is active punctual and obliging, and adds to a discriminating mind the quality, energy and watchfulness of a business Man. For the foregoing reasons, and the additional fact that his opponent, (Burks) is a man of no qualifications whatever, which will be shown by the several petitions sent up, I indulge the hope that Your Excellency, will consider favorably, the recommendation of Gholson.

In conclusion, permit me to tender to Your Excellency an assurance of my profound regard.

Dr God.

I expect you will have to make an appointment of Gate-keeper at Cumberland-ford. My brother Alfred Smith would like to have the appointment. You know him. He is every way qualified for the place. You will see by the act of last winter that unless the Gate sells for $3000. you have to make the appointment. The sale of the Gate is on the 4th Monday in this month. Yr
