Dear Sir

Your favour of the 31st Ult.mo was not received by me until the 5th Instant I had previous to the Receipt of your letter directed my Son James to Turn out and try to raise three Volenteers I have attended two or three musters on this day. I am sorry to say the prospects are not such as I could wish; there is however some scattering persons that talk of Turning out there is a meeting of the citizens of this County requested on Monday next when I will attend and use all my Influence with the people to induce them to turn out, there will be an opportunity I think by the middle of next week of forming some Judgment of what will be done in this quarter, I should have been in Frankfort today but for the Receipt of your Letter, you may depend on every exertion being made by me to

get men forward and you may expect to see me by Wednesday or Thursday next in Frankfort
I believe men could be had if there was horses for
them, and I have and will urge all those
who have horses and will not go themselves to
let their horses go, there has been enquiry of
me what the pay will be which I have not
been able to answer; You request to know
if it will suit my convenience to go with you
my dear sir Convenience will not be consulted
by me, nothing but a want of Ability in
point of bodily health will prevent it, that
I have Reason to fear will, but If I find my
going will be an inducement to get them
to turn out from this County I believe I shall
not even consult my health, I will write you
again by Tuesdays Mail and with I may
had it my power to give you a more flattering
prospect of our Patriotism, than I can at
present I am with great respect Friendship
Your Obed. Serv.
