Dear Sir,

I do myself the pleasure to acknowledge the Rec. of your Order to me of 13th Inst. accompanied with Gen. Order for a Draft [redacted] to your troops: first permit me to correct a mistake which thro' haste I fear I might have made on the Reception of your Circular address especially to me: Giving my opinion as to the supposed No. from this County. I think (from recollection) I said I expected a Battalion: I meant to say I expected ½ a battalion or 2 Companies. The fact is We have 65 now inrolled of the 16th Reg. I am amongst the number. they will set out for N. York on Friday next 20th Inst. When I visited the 87th Reg. of this Cty. also. they had enrolled 28 [redacted] and increasing fast so that two or nearly so Companies will be on from this County. — My son has just arrived from the 45th Reg. of Barren County, from which a report is made to me that they have a fine Company headed by Maj. Gorin — and a great probability of another Company in the other Reg. of Barren — I have just seen a statement of the Number of Volunteers from the Reg. in Green Cty. which is 70 in Number (I think) I have no doubt of a Company or nearly so having been made in Adair. tho' I have no certain

information from Gen[l] Covington of Warren County yet
I cannot doubt that County: upon the whole
Your Excellency will discover that we have
already enrolled in my Division 291. — 70 from
Tryon 64 from Adair 93 from Cumberland
64 from Barren. and the 3 Regts. in. and
from Barren and two of Warren not heard
from. I have no doubt the proportion
from my Division G[l] K[s] is 320. I cannot
doubt of the Number & many more meet-
ing you at Newport on your Excellencies
arrys. Great order and great har-
mon manifested on the occasion — I have
exerted my self to the utmost of my
power. and shall meet you if life
and strength permit
I am D[r] Sir
Yr Excellencys ob[t] Serv[t]

Dr Sir,

Russellville

August 17th 1813

The Regiment in this County was called together this day the second time for the purpose of getting volunteers and upwards of seventy five inclusive of officers have been raised. The most active exertions were made to increase the number but disappointments with regard to pay heretofore discouraged them and I am satisfied half this number could not have been brought out but for the expectation of being commanded by yourself. I have not heard from the adjacent Counties but orders have been twice issued by Genl Caldwell to call them together ~~immediately~~ who has been very industrious and active. He intends going with you and if it can meet your approbation his appointment as Col will be very agreeable to the men from this County as far as I have been able to ascertaid and upon the score of industry in this business or the sacrifices he will make of his own interest no man can be better

recommended or more deserving
but I expect applicants for ~~office~~ commands
multiply upon your hands daily and
all cannot be gratified

I am Dr Sir your's respectfully
