Army Pay Office
City of Washington
November 26th 1813.

Sir,

I have the honor to enclose for the use of the Government of your State (the Paymaster General of the Militia, if any such Officer you have) a code of instructions, such as are given by me to Deputy and other Sub-Pay masters in the regular army of the United States, and which, as the title page indicates, may with trifling variation be made applicable to Militia:

They may also, be made equally applicable to Regimental Pay Masters as to Deputy Paymasters General, by striking out that part which relates to advances of money on estimate, in page 11, because the payments to be made by Regimental Paymasters must always be in detail, and on the requisite vouchers; They will receive their funds as set forth in Page 11, aforesaid.—

With Consideration & respect
I am Sir Your Mo: Obt.

Robert Brent
Paymaster Gen.

His Excellency
Isaac Shelby
Govr. of the State of
Kentucky Frankfort. Favored by Lieut. [illegible] U. S.

Sh8-46B

P. S.

If the Laws of the State over which you preside contemplates such an Officer as "Pay master General of the Militia". It would be well that the funds for Payment of the Militia, who may be called into the service of the United States, should pass through his hands. In that case it would be proper for him to give Bond to the United States for the faithful execution of the trust. The necessary form of a Bond will be found in the small Book of instructions, Page 77. The Penalty must be put at 20,000 Dollars, and forwarded to this Office as directed in the Instructions.
