The undersigned, being duly sworn, states that he is a citizen and resident of the city of Louisville, County of Jefferson and State of Kentucky. They state that they are members of the Honest Election League, an organization of said city of Louisville and county of Jefferson, organized for the sole purpose of securing, if possible, a fair and just election and honest count of the vote cast in said city and county, and also to secure by lawful means only a peaceable and orderly election. The said affiants further state that on account of the present excited condition of the public mind and the general opinion prevailing that a fair election will not be given to the citizens of said city and county, but that the free exercise of the right of franchise will be interrupted by force and fraud, they verily believe that there is great danger that many breaches of the peace, riots and disturbances will occur on the day of the election, to wit, the 7th day of November, 1899. They believe that the public officials of the city of Louisville, so far from endeavoring to prevent such breaches of the peace and violations of the law, will aid and encourage the same by the illegal orders

to the firemen and police which they have issued and will continue to issue, and by other acts calculated to interfere with the just rights of the voters of said city and County. Affiants believe that it is necessary for the safety and welfare of the Commonwealth, and in order to prevent domestic violence and in order to preserve the peace and security of the Commonwealth and the rights and lives and property of the citizens of said city and county, to employ military force in aid of the civil power of the government for the enforcement of the law, and to order into active service so much of the State Guard or military force of the Commonwealth of Kentucky as he, the Governor, may deem necessary in order to prevent such danger. The affiants verily believe that such State Guard or military force of the Commonwealth of Kentucky, if ordered to assemble and be held ready for such service, or if ordered into active service, cannot safely be placed under the command, charge or direction of the Mayor of Louisville, of the Jailer of said county of Jefferson, of the Sheriff of said County of Jefferson, or the Chief of Police of the city of Louisville, for the reason that said officials will not use said State Guard or military force for the purpose of preserving the peace and the security of the rights, lives and property of the citizens, all of the same being in full sympathy with the parties who are threatening such breaches of peace and violations of law. In fact the placing of the troops under the command of any of the above named officials of the City of Louisville or County of Jefferson would greatly tend to increase the existing excitement and apprehensions of danger in the public mind.

The affiants being first duly sworn, state that they are citizens and residents of the City of Louisville, County of Jefferson. They state that on account of the present excited condition of the public mind, the general opinion prevailing that a fair election will not be given to the citizens of the said city and county, and the impression that the free exercise of the right of franchise will be interrupted by force and fraud, they verily believe there is great danger that many breaches of the peace, riots and disturbances will occur on the day of the election, to-wit: the seventh day of November, 1899. They believe that in order to preserve the peace and secure the rights, lives and property, of citizens of said city and county, that it will be necessary to strengthen the civil authority in the said city and county.

Affiants further believe that to secure these ends it will be necessary to employ military force in aid of the civil power of the Government, for the enforcement of the law, and to order into the service so much of the State Guard or military force of the Commonwealth as the Governor may deem necessary, to prevent these dangers. As further supporting these apprehensions, we refer to a recent proclation of the Mayor of the city of Louisville, which we add to this affidavit.

The affiants verily believe that if such State Guard, or military force be ordered to assemble and be ready for service, or if ordered into active service, cannot safely be placed under the command, charge or direction of the Mayor of the City of Louisville, the Jailor of the said County of Jefferson, or of the Sheriff of said County of Jefferson. They further state that there is no Marshall in Jefferson County and that the Chief of police of Jefferson County is a subordinate of the Maynard of the Board of Public Safety, and directly subject to their orders. The reason for this belief is that the officials named are active partisans of the candidate in full sympathy with measures calculated to excite further alarm and create further disturbance. Allen R. And said citizens having appealed to me to order out the State Guard to preserve the public peace, prevent violence or destruction of property or life— I now issue the following order directed to Major Nelson Edwards 2d Ky Regt. K. S. G. (No. 1)

"Covington, Ky., Nov. 6th, 1899.

To his Excellency, William O. Bradley, Governor of Kentucky.

The undersigned citizens of Covington and Kenton County very earnestly represent that it is necessary for the safety and welfare of the State and in order to avert threatened domestic violence and other danger to the public interests, to employ Military force in aid of the civil power of the State in preserving the peace and securing the rights, property, and lives of the citizens.

That there is a high state of public feeling aroused by well grounded apprehensions of fraud, force and other lawlessness at the coming election, and consequently imminent danger of a serious breach of the peace, destruction of property and loss of human life on that day and immediately after.

That the local civil authorities will not exercise their power to preserve order and secure a fair election, but on the contrary are in a conspiracy to prevent such an election and thus provoke disorder and violence.

The Commonwealth of Kentucky,
Executive Department, Frankfort, November 6th Cont. 1899
