His Excellency
Gabl Slaughter Esqr

Mt Sterling 1st March 1820

Sir I enclosed to you some time since a petition, requesting you, not to remit a fine of $200 entered upon the Montgomery Circuit Court against Samuel Casey, of Union County, without he would pay over the money in his hands, Collected for Rachel Comings. He having paid over the money a few days since, and the object of the suit being fully accomplished I would beg leave to suggest to your Excellency's discretion the propriety of remitting the fine. Mr Casey is Clerk of the Circuit Court of Union County, which is a considerable distance from here, & being summoned as a Witness, on a motion against the Sheriff for money, which was in his own hands, no doubt, he did not wish to come, & times being hard, money scarce, he could not readily pay over the money. Should your excellency remit the fine please send it on to me, in order to prevent an Execution.

I am very Respectfully
Yr: Obt Servt

Floyd County Kentucky (To Wit)
This day personally appeared James Honaker
Before me one of the commonwealths Justices
of the peace for the county aforesaid and made
oath that he was at the house of Kinsey B. Cecil
who informed him that he was fined (perhaps) seven
teen dollars for turning the road round his fence
and said Cecil Requested this deponant to measure
both the new, and old road, and on measuring the
two roads the new road was 17 poles the nearest and
much the best way for a road and believes the road
as turned to be a considerable advantage to the
public and travelars in General Given under

Petition 2.

Floyd County Kentuckey (So Wt)

This day appeared before me (James Honaker one of the Justices of the peace for the county aforesaid) Barnabas Johnson and made oath that he was appointed Surveyor of the road which passes Rinsey B. Cecils and the road at that time run on a steep North hill Side, and said Cecil applied to ~~him~~ him to know if he might turn the road as there was a much nearer and Better way for the road, and this deponant being Ignorant of the law on that Subject, and believing the Surveyor had power to turn the road at any time for the better, give his consent with the Intire approbation of all the hands, and the said Cecil opened the new road before he stopped up the old and the new road is much the nearest and best way for a road, and an advantage to the public, and Satisfactory to all the neighbours (except a Mr. Zacheriah Johnson who (it is believed) from some deferance with said Cecil give information before the Grand Jury against said Cecil for obstructing the public road, (as it is said) Given under my hand this 20th day of September 1820

Bullitt County. Set.

As Clerk of Bullitt County Court in the State of Kentucky. I do certify that at the October Term of said County Court 1817. Jacob Bowman made application for and obtained an Order to build a Water Grist & Saw Mill on his Lands in said County on Long Lick Creek - That the Writ of adquad damnum was awarded upon — That the said Bowman at that time and ever since until he actually did. Manifested a disposition to Build a proper and Decent Brige across Long Lick Creek at the place Where the public road crosses it — The reason Why I say he Manifested such disposition is this " That When he made the application and Obtained at sundry times afterwards. There was some opposition to the Writ partly him on account of the Obstructions it might cause the Navigation - Mr Bowman always appeared anxious Willing that if the Court would grant him an Order to that effect he Would build a competent Brige - and put a One as is now built by him at that place — Witness my hand this 9th day of June 1820

James Hallett

I Do Certify that such a Bridge as Jacob Bowman has built across Long Lick Creek above his Mill Dam Could not in my opinion be built for any Sum Than Some Where between Three and five hundred Dollors Given under my hand this 9th June 1820
